CS Advisor, Career Symposium

Aug 2012 | **Boy Scouts of America**
Eagle Scout Award

PROFILE

For over a decade, I have learned from the best Python experts and helped grow startups into multi-billion-dollar companies. Beyond programming, I have helped others develop their skills and get new jobs.

WORK EXPERIENCE

RunwayML — 2023 – 2024

Staff Software Engineer

At Runway, I improved deployment practices and upgraded production Kubernetes clusters without downtime. I also helped improve Python development practices for the AI video model.

Noteable — 2020 – 2023

Staff Software Engineer

As the Lead Software Engineer for the backend team at Noteable, I mentored junior engineers and led the development of many new features.

Alliance of American Football — 2018-2019

Senior Software Engineer

I wrote code to ingest millions of IOT data points per second and help deliver low-latency video using HLS. I also developed the website to show real-time scores & stats.

Carta (f.k.a. eShares) — 2015 – 2018

Software Engineer

I worked directly with Carta's CEO and CTO to help build new teams, third-party integrations, and other special projects.
